Proviso 1A.71 Of the funds appropriated for Technology Professional Development, each school district or special school shall receive a proportional allocation based on the previous year’s 135-day average daily membership. The district must use these funds to provide teachers with professional development specifically related to Teacher Training for Technology. These funds may not be used to supplant existing school district expenditures. By June 1, 2016, and on a form specified by the Department of Education, each school district or special school must report to the department on the amounts of state funds and any local funds expended on such training and describe the types of professional development and training provided to teachers and the number of teachers that participated.

The appropriate accounts for allowed expenditures are as follows:

- 312-224-300 Improvement of Instruction Purchased Services
- 312-224-400 Improvement of Instruction Supplies and Materials
- 312-266-300 Technology and Data Processing Purchased Services
- 312-266-400 Technology and Data Processing Supplies and Materials

Funds may be carried over into the 2015-16 fiscal year.
