State Board Regulation:

Career or Technology Centers/Comprehensive High Schools

Career or technology centers and/or comprehensive high schools shall, based on local needs, offer a variety of courses that will constitute a career major. These career majors are contained in the clusters defined and communicated to school districts by the Office of Career and Technology Education in conjunction with federal and state funding for career and technology courses and programs.

School Districts will offer in high schools and/or career or technology centers a full complement of courses within a minimum of two career clusters to enable students to complete at least four Carnegie units in an approved sequence of Career and Technology Education coursework leading to a career goal.
