PTTP tutorial

<http://www.ptcb.org/>

The Pharmacy Technician Certification Board (PTCB) develops, maintains, promotes and administers a high-quality certification and recertification program for pharmacy technicians. The PTCB provides first-rate programs and services that offer pharmacy technicians an opportunity to demonstrate that they have mastered knowledge and skills across practice settings. Through the PTCB program, pharmacy technicians are able to work more effectively with pharmacists to offer better patient care and service.

<http://www.fda.gov/default.htm>

Official site of the U.S. Food and Drug Administration, Dept. of Health and Human Services

<http://www.fda.gov/cder/index.html>

This U.S. Food and Drug Administration Web site focuses on the Center for Drug Evaluation and Research (CDER) human drugs.

<http://www.fda.gov/cder/Offices/OTC/default.htm>

The Web site focuses on the increasingly vital role over-the-counter (OTC) drugs play in America's health care system. OTC drug products are those drugs that are available to consumers without a prescription. There are more than 80 therapeutic categories of OTC drugs, ranging from acne drug products to weight control drug products. As with prescription drugs, The Center for Drug Evaluation and Research (CDER) oversees OTC drugs to ensure that they are properly labeled and that their benefits outweigh their risks.

<http://www.medlineplus.gov/>

This Web site is a service of the U.S. National Library of Medicine and the National Institutes of Health.

<http://www.rxlist.com/>

An Internet drug index providing fast, reliable information to consumers and medical professionals

<http://www.puzzlemaker.com/>

A puzzle generation tool for teachers, students and parents—create and print customized word search, crossword and math puzzles using your word lists.

<http://www.lib.uiowa.edu/hardin/md/pictures.html>

Provides free medical pictures, disease pictures, free medical images, medical conditions pictures, medical diagrams, free medical photos, health pictures, and other medical photographs—Great site for teachers and students creating PowerPoint presentations and developing projects.
