

## Dear Colleague:

On December 10, 2015, President Obama signed into law the Every Student Succeeds Act (ESSA), which reauthorized the Elementary and Secondary Education Act of 1965 (ESEA). The ESSA makes a number of changes to the equitable services requirements for private school students in Title I and Title VIII of the ESEA. The following affirmation form, titled **Private School Initial Consultation and Notification of Intent for FYXX Provision of Services** was created to collect some of this new information on private schools as outlined in the ESSA.

This affirmation form documents that an initial consultation was held with each private school, and if that private school's intent is to continue with on-going consultation to plan for equitable services for the FYXX school year. Therefore, the LEA will use a separate form for each private school that attended the initial consultation and/or decided to continue with the consultation.

This form asks for the private school official's contact information at the top and signature at the bottom. Another requirement is for both the LEA and private school officials to initial in two places. In Part 1 of the form, both will initial if the initial consultation did or did not occur. In Part 2, initials are scribed to document bilateral opinion as to whether the intent is to continue or not to continue the on-going consultation. If the LEA has no private schools participating in equitable services in FYXX, then Part 2 also contains a check box to indicate this.

The completed documentation should be kept in the district's files for Title II, Part A.

Should you have additional questions, please contact the Title II, Part A State Coordinator.
