Report of Principal and School Improvement Council

William S. Hall is a residential facility that serves students requiring inpatient mental health services. Unless medically unadvisable, students are expected to participate in educational activities which will prepare them to meet South Carolina learning standards and score as well as their abilities allow on state standardized tests. Our academic program focuses on helping students stay current with their academic skills or develop strengths that will enable them to function more effectively in their regular school programs when their hospital stay is completed. Each student is offered the opportunity to participate in the Richland One approved core course curriculum taught by certified teachers during his/her hospital stay. A Nova Net learning laboratory is also available to supplement classroom educational opportunities and to help students who have splintered skills or need enrichment activities. Because of the small number of students tested at our facility, our scores remain statistically insignificant; however, we have noted a steady increase in the number of students scoring above basic or proficient on HSAP and PASS and an increase in the number of students receiving passing scores on EOC tests.

Our staff development focuses on helping our teaching staff find ways to academically involve students who are experiencing a variety of disruptive life problems. We are utilizing our district-sponsored High Yield Strategies workshops and staff development activities, hospital sponsored staff development activities which help us find more effective ways of dealing with mental health issues in the schools, and peer-directed workshops that share currently used successful strategies.

Teacher training concentrates on increasing one's availability of teaching strategies that will: keep students acclimated to the expectations and requirements of their home schools, maintain the same or similar standards and procedures the students will find in their home schools, and provide the type of learning environment that will encourage students to focus on academics instead of the stress of their current lives.
