Report of Principal and School Improvement Council

Sanders-Clyde is a Title I school with a total enrollment of approximately 400 students. The school has a grade-span of Pre-K through 8th grade. Special education students receive assistance through inclusion, as well as self-contained models. The 2009-2010 school-year brought with it quite a bit of excitement. The school saw an increase of approximately 70 students, as compared to the previous year. A major milestone was reached, as students and staff moved out of a temporary facility into a new state-of-the-art building. The facility, with a price tag of 25.7 million dollars, is home to the largest piece of public art in the city, a ceramic tile mural, mounted on one of the exterior walls of the gymnasium. The mural was reproduced from a painting by world-renowned artist and Sanders-Clyde patron, Jonathan Green. Capping off the year, the school hosted its first-annual Open House Week, highlighting the artistic endeavors of the students. This coincided with the continued implementation of an arts-integrated curriculum.

During the school-year, students and faculty were honored with individual and group awards. Third grade teacher Maisha Rounds was named the Charleston County Teacher of the Year. In addition, student representatives were honored for excellence in spelling bees, art contests, and oratorical contests.

One of the school's major successes was making Adequate Yearly Progress (AYP). In the previous year, the school missed six of the thirteen categories. Although the elementary school showed improvement across the board, it maintained its Absolute and Improvement Ratings of "At Risk." The middle school posted gains, providing an improvement in Absolute Rating from "At Risk" to "Below Average." The middle school's Improvement Rating also moved from "At Risk" to "Below Average."

Response to Intervention (RTI) was a major focus this year. The school's Core Team met weekly to address the diverse needs of the student population. The school utilized several research-based intervention programs to assist struggling learners. These included Rewards, Voyager Expanded Learning, and Reading Recovery. Third-grade students needing intensive intervention were part of a Third-Grade Academy. This program was designed to provide prescriptive intervention in the areas of reading and math. In addition, the further implementation of Positive Behavior Interventions and Supports (PBIS) garnered the school an award for first-year implementation. A crucial component of all of the programs was the emphasis on implementation with fidelity.

Continued professional development in the implementation of an "arts infused" curriculum has allowed teachers to become more proficient in the delivery of quality "arts infused" lessons.
