Report of Principal and School Improvement Council

The staff at A. J. Lewis Greenview Elementary School continues to strive to improve academic achievement for all students.

Although the staff participation in the Reading First Grant ended in 2009, teachers continued implementing best practices to ensure that all students are proficient readers. Several teachers continued to participate in reading workshops and shared strategies with colleagues in our efforts to promote professional learning communities. The school's reading interventionist worked with students in grades 3-5, who scored below average on MAP and Star assessments. Teachers in grades K-3 continued using the Dominie assessment to plan instructional activities to meet the needs of individual students in reading.

Highlights included two teachers receiving National Board Certification and two Odyssey of the Mind teams winning second-place honors at state competition, thereby qualifying to compete in the World Finals Competition in Lansing, Michigan. The School Improvement Council held its Fourth Annual Male Leadership Conference and the former chairperson is chairperson on the School Improvement Council at the state level.

Our 2009 PASS results indicated a need to continue focusing on developing students' skills in social studies and science. Therefore, teachers will continue to share effective social studies and science strategies at faculty meetings and during staff development activities. The school will continue professional development for all teachers on the Principles of Learning in order to continue raising student achievement in the areas of social studies, science, and math. Leveled texts were provided for all students in grades K-5 to improve reading achievement.

Additional interventions included after school improvement classes in the content areas; retired teachers working with identified students in grades four and five during the regular school day; emphasizing the raising of academic achievement in math and reading; CD and Kindergarten students using Breakthrough to Literacy to develop the skills necessary to become competent readers; and incorporating flexible grouping throughout the school to assist students experiencing difficulty with identified skills.

Challenges that our school continues to face, include drastic changes in community demographics; single parent or extended family members heading households; and a growing number of grandparents serving as the primary caregivers to students attending the school. Our overall goal is to focus efforts on meeting the academic needs of all students in our changing community.
