REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

This has been an exciting and fast-paced year at Jefferson Elementary School. We have continued the ongoing tradition of providing a child-centered environment that challenges and nurtures our students. Not only do we hold high expectations for academic achievement, we continue to stress the qualities of good citizenship. Our ultimate goal is for the students of Jefferson to become productive members of our global society.

This year has been very challenging as well as extremely rewarding. Our final year with the South Carolina Reading Initiative (SCRI) has challenged us to look closely at our data to guide our instruction. Focused study of various data has allowed staff to teach with purpose and give students more individualized instruction. We have seen tremendous growth in our students and are confident that as we grow as teachers, our students will continue to improve.

Students participated in numerous service activities such as Pennies for PATH, Jump Rope for Heart, and Relay for Life. Students were involved in other experiences such as choral programs, Culture Fest, and a recycling project. Opportunities in leadership were provided through participation in student council.

Parent and community involvement in the school were encouraged in many ways. A Lunch Buddies program brought in community members to spend time with students and provide an adult role model. District Office staff also worked with students during the year on academics, as well as providing positive role models. Parents were invited to participate in events such as book fairs, reading with students, and a living wax museum, as well as graduation and awards ceremonies. The community as a whole is dedicated to our students.

We continue to encourage the use of technology in our classrooms. Through a grant, our district was able to provide a Technology Coach to assist teachers in using available technology. Teachers continue to integrate technology into the classroom as often as possible. Our next technology goal is to add more interactive white boards to our classrooms.

For the 2010-2011 school year, we will continue about the business of educating our children. Our goal is to increase the percentage of students meeting target growth on MAP, continue to improve reading instruction, as well as provide a quality education for the customers we serve. We strive to reinforce our learning community as we continue "Linking Learning to Life."
