SC PERFORMANCE GOAL

2010 Goal:

By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:

By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Pendergrass Fairwold School serves medically fragile and severely mentally and physically disabled students from ages 3-21 who require a structured educational environment which will help them maximize physical mobility, self help skills, and life skills, and, consequently, facilitate their adjustment to community living. We also provide services for students, ages 18 to 21, who require significant supportive programming to transition from school to work or from school to independent living. All students receive educational and related services according to their Individual Education Plan (IEP) and are monitored for progress according to the guidelines of their individual IEP.

Our focuses for this year have been improving the quality of our services to our population and developing communication systems that will help parents and other shareholders better understand what we are doing to maximize and teach skills and to document in graphic form the improvements that have been made compared to the expectations of the Individual Education Plan (IEP). In accordance with our school improvement plan, our teachers are working on adopting best practice strategies that will become standards of operating procedures for all teachers in the building. We are using staff development and daily practice to help our teaching staff maximize the use of technology by using digital cameras to record real world teaching materials, using voice output devices and switches to help non-verbal and mobility impaired students communicate with others and develop control of some of the facets of their environment. Our practice of making all IEP progress information objective so it can be placed in graphic form has helped teachers focus more on "what are the essential skills this student needs to acquire" and has made us more articulate in talking to parents and shareholders about what we are doing, why we are doing what we are doing, and the outcomes we hope to achieve when our strategies and methods are applied to designated situations.

We will continue to implement and monitor the goals of our school improvement plan as we continue to make our teaching strategies and outcomes more transparent to our parents and shareholders.

Patricia W. Brown, Principal

Constance Marsh, SIC Chairperson
