SC PERFORMANCE GOAL

2010 Goal:

By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:

By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Diamond Hill Elementary's 2009-2010 school theme was "Nothing Could Be Finer than Learning In Carolina." We continued to address closing the achievement gap in our small, rural school through a variety of best practices. To accomplish this goal, we used DIBELS, Measures of Academic Progress (MAP), Education City, and Successmaker data to meet the instructional needs of students. Teachers used information from this data to write and analyze objectives, instruction, and assessments based on SC standards. In addition, each student was grouped based on data in order to receive specialized reading instruction from teachers. As a school, we chose to administer Nine Weeks Tests in science and social studies this year based on Flanagan's Tests for Higher Standards. This decision to track mastery of core units in these subjects will help our teachers continue to monitor student comprehension of key ideas and allow for student remediation in deficient areas where standards are not met.

Our school-wide reform plan concentrated on improving reading skills among students this year. Students participated in a self-selected individual reading time each afternoon as part of our overall "READ TO WIN IN 2010" incentive program. Students were asked to read a specific number of books that varied according to grade level, use a reading journal to record their responses to the book, and report back to their teacher and librarian about books they enjoyed or disliked. Students read over 4,000 books in the first three months of the program, so our School Improvement Council and PTO sponsored a Reading Fun Day as a celebration.

Our plan for school-wide reform places the needs of the students in the forefront of all school decisions. In using assessment data and stakeholder opinions, the School Improvement Council has placed a renewed emphasis on developing critical thinking skills, integrating literacy skills in all subjects, and encouraging active participation by students in learning opportunities. Daily trivia questions, daily review, and homework are ways that our school strives to consistently evaluate student learning. Our school's teachers actively use data to remediate, advance, and accelerate learning for each child as an individual in the core areas of reading/writing, mathematics, science, and social studies.

Diamond Hill Elementary continues to have a family friendly atmosphere. Parents and community members are regularly invited to school events such as Living History Day, Multicultural Career Day, Grandparent's Day, Muffins for Mom, and Doughnuts for Dads. In addition, Little River Electric Cooperative and Santee Cooper donated a two kilowatt solar power demonstration system to Diamond Hill for teaching and learning about solar energy. Diamond Hill is proud to have earned community recognition as a Green Power Solar School.

Our school encourages positive character traits, service learning, and leadership development while preparing our students to be productive citizens.

Diamond Hill...a Great Place to Shine!

Mr. Todd Ramey, Principal
Mrs. Susan Hilley, School Improvement Council Chair
