REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

W.A. Perry Middle School made significant accomplishments during the 2009-2010 academic year.

The mission of W.A. Perry Middle School is to educate each student and prepare him or her for a successful high school experience, so each can become a lifelong learner, achieve his or her maximum potential, and become a productive member of society, enhanced by collaboration with our parents and the community. It is the collaborations, with Trinity Episcopal Cathedral, Harmony, University of South Carolina's TRIO Program, and the W.A. Perry Community Taskforce, that enable our school community the opportunity to enhance the program that we provide for students.

Throughout the year, W.A. Perry students maintained an attendance rate of 95.47%. We had several students receive awards in the visual arts. In addition, an eighth grade student was featured in The State newspaper for special student art and poetry. Faculty and staff along with 45 students completed the 25 books challenge. W.A. Perry was one of only two competitors at the Future City competition to win in two categories in their first year as a club. More specifically, several 7th and 8th grade students received the Future City Award, Student Choice Award, and Best Use of Systems Engineering Award for the design of a city, from Savannah River Nuclear Solutions. Also, students from the W.A. Perry concert band were selected for the Richland One Middle School Honor Band 2010.

In the area of academics, Measures of Academic Progress (MAP) scores indicated significant gains in all academic areas. District common assessments indicate gains in ELA across all grade levels. Teachers from our science department presented at the 2009-2010 state and national science conferences. Continued attention to detail in the teaching and learning process, prescribed professional development driven by data, and focused student interventions promise to foster continued improvement in achievement at W.A. Perry.

At W.A. Perry Middle School, it is our belief that the needs of our students should be the primary focus. Instruction and assessment of students should be differentiated based on the student in an effort to increase success. In addition, creating positive relationships among family, community, and school is vital to the success of our school and community. Parent participation in school conferences and activities increased this year, but continues to require significant encouragement from all stakeholders within our community.
