SC PERFORMANCE GOAL

2010 Goal:

By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:

By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

William S. Hall is a residential facility that serves students requiring in-patient mental health services. Unless, medically inadvisable, students are expected to participate in educational activities which will prepare them to meet South Carolina learning standards and score as well as their abilities allow on state standardized tests. Our academic program focuses on helping students stay current with their academic skills or develop strengths that will enable them to function more effectively in their regular school programs when their hospital stay is completed. Each student is offered the opportunity to participate in the Richland One-approved core course curriculum taught by certified teachers during his/her hospital stay. A Nova Net learning laboratory is also available to supplement classroom educational opportunities and to help students who have splintered skills or need enrichment activities. Because of the small number of students tested at our facility, our scores remain statistically insignificant; however, we have noted a steady increase in the number of students scoring basic and above basic on HSAP and PASS. We have also experienced an increase in the number of students receiving passing scores on EOC tests.

Our focuses for this year have been two-fold. We have concentrated on implementing programs and systems that will help students become more involved and more motivated to excel in academics; and we have implemented a staff development program geared toward giving teachers effective strategies that will meet the needs of a diverse and academically challenged population. Our staff development concentrated on aspects of the Principles of Learning staff development program developed by Laurin Resnick from the University of Pittsburg. We instituted systems of student expectations, incentives, contests, and recognition programs for the students while strengthening communications with the hospital administrative staffs to help deal with the problems of student achievement.

We feel that we have had some successful outcomes as a result of our school focus. We will continue our efforts in the coming year.
