REPORT OF DIRECTOR AND SCHOOL IMPROVEMENT COUNCIL

Students attending The Aiken County Career and Technology Center and completing four or more credits in one skill area are designated as completers. This is a major accomplishment for these students, and with many completing national certifications in their specific area of training, these students are well on their way to entering the workforce as confident, productive citizens. This year 133 students received the distinction of being completers in their chosen fields.

Because of the engagement and real world learning opportunities, students attending the Career Center have maintained over a ninety-five percent graduation rate in recent years, which we hope to continue. Also, with the addition of the tenth grade exploratory classes and a new digital media class, our enrollment for this school year increased by 35%. Not only are more students being served on our campus, we have also begun an off-campus, apprenticeship program with local business partner, MTU. This program allows students to garner valuable work experience in a real world environment.

We are proud of the individual and collective accomplishments of our students. Many have excelled at the state and national level. Some of our notable accomplishments are the attainment of NATEF certification by the automotive department as well as having a student compete at the national level in the area of mobile electronics.

As we continue to enthusiastically assist our students toward achieving success at our school and beyond, we welcome and appreciate the continued support from our parents and community.
