Report of Principal and School Improvement Council

High Hills Elementary, a Title I school, provides students in grades four and five a great place to learn. Our student enrollment is made up of military dependents from the nearby Air Force base and students from the surrounding rural community. We have a highly transient population. However, our school and district personnel, parents, community members and students work together effectively to create a positive and inviting learning environment.

Our teachers use district-wide unit plans, which address state standards and provide students with critical thinking and problem solving activities. This year, our teachers have attended a number of workshops, based on Balanced Literacy and Math Solutions. Our language arts teachers are in a literacy class, which offers various approaches to teaching reading strategies and our mathematics teachers work with the math coach for weekly planning.

We continue to utilize educational research and test data to focus on programs that will help increase student achievement. We have an enrichment teacher to work with students in small groups to address our weaknesses in English Language Arts. Our weekly schedule also includes programs such as Accelerated Reader and computer lab. Child Study, volunteers, and parenting workshops are examples of other programs in place to meet the needs of students at High Hills.

Although our school goal of every child scoring proficient or advanced on the PASS has not yet been attained, our students have made progress in all subject areas. We will continue to utilize research, involve our parents and community members, and focus on appropriate academic planning and instruction to improve the achievement of each child attending High Hills Elementary School.

Brenda Witherspoon, School Improvement Council Chairperson

ESEA/Federal Accountability Rating System

In July 2012, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/eSEA/> or request this information from your child's district or school.
