REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The faculty and staff at Harleyville-Ridgeville Elementary, along with the School Improvement Council, continue to work diligently to address the needs of our student population. Through the continued analyses of data, initiatives and programs are evaluated and developed to keep our academics focused on key areas of concern.

We continue to use data from MAP assessments to help guide our instructional approach as the school year develops. Results from this assessment also help teachers form small group instruction and identify students who could use the services of a tutor or the after-school program.

At Harleyville-Ridgeville Elementary, we also use results from the Dominie assessments to assist students who are deficient in one or more areas. These students are referred to our reading intervention program where intense small group instruction is the focus. Constant collaboration between the classroom teacher and the interventionist on the students' progress is an integral part of the program.

The results from our 2011 PASS assessments indicate that math should be a schoolwide focus. To address the issue we have implemented the four-frames approach to teaching math in grades two through five. In the lower grades our teachers have been introduced to the Singapore Math approach to problem solving. These efforts along with the continued focus on developing basic skills will help improve our performance on the PASS assessments.

As a school we are continuously seeking ways to improve education for our students. Parents and community members are constantly being invited to be a part of the educational process. We have made great strides in the past and look forward to continuous improvement.
