REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT
COUNCIL

During the 2013-2014 school year, Hopkins Middle School had many outstanding accomplishments with the support of our superintendent and the Richland School District One Board of Commissioners. Among the accomplishments we had was a student being selected as a Duke Tip Scholar, a student being selected to attend the South Carolina Governor’s School for the Arts and Humanities Discovery Program, 12 Middle School Scholars, 4 South Carolina Junior Scholars, 3 district honors orchestra members and 2 students on the District’s Honors Dance Company. Hopkins Middle had 5 foci which were: rigor, relevance and relationships, student engagement, explicit direct instruction, common core, and literacy with a focus on reading and writing across the curriculum.

We continue to use Making Middle Grades Work (MMGW) as a framework for continuous school improvement.

Our teachers participated in a year-long book study on Explicit Direct Instruction. In addition, we created a data room that allows us to constantly analyze data to make educational decisions. As a result, we continue to see improvement in instructional delivery.

Hopkins Middle School utilizes a variety of research based products to address the various needs of our students in the area of reading and mathematics using Read 180 and FASTT Math. Hopkins Middle implemented an intervention block during the 2013-2014 school year to address individual student needs based on data. We also provide additional academic assistance for our students during the Comprehensive Remediation Program and Saturday School.

Hopkins Middle School along with Student Nutrition launched its Salad Bar kick-off last school year and we have noticed an increase in the number students making healthier eating choices. Hopkins Middle is one of the recipients of the twelve salad bars donated to the Richland One School District by HBO. The Let’s Move Salad Bars to Schools program is a national campaign that connects donors and schools with the goal of giving away free salad bars with the vision to significantly increase salad bars in schools across the country until every child has the choice of healthy fruits and vegetables every day at school.

Hopkins Middle School implemented Project Lead the Way during the 2013-2014 school year. Project Lead the Way ensures that math, science, and industrial technology become relevant for students. By engaging in hands on, real world projects, students understand how the skills they are learning in the classroom can be applied to everyday work. The PLTW approach to learning is activity based, project-based, and problem-solving based.

The future of Hopkins Middle School is quite bright as we continue “Soaring to New Heights”!
