South Carolina State Report Card

State and federal laws require public schools to release report cards to the public each year. This year, the report card has been updated to reflect changes in reporting directed by the SC Education Oversight Committee. Schools will not be rated for state accountability purposes until Fall 2017 when the state will transition to a single accountability system. The following reports student performance in school year 2014-15.

WORLD CLASS SKILLS & LIFE AND CAREER CHARACTERISTICS

Our school is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate by …

PACE is guided by its mission to improve the quality of life for children with multiple, severe and complex disabilities, providing a comprehensive educational program integrating educational curricula with functional habilitation to maximize the abilities and well-being of each child.

Our students require a different view of Life/Career. These concepts include the ability to sit and stand, to position for life functions, comfort and strength, to walk and pedal. World Class Skills for our students include the ability to scoop food and to eat with assistance. Many of our children will not achieve this ability and feed with maximum assistance using feeding tubes.

Communication is included with information, media and technology in the Profile of the Graduate as expected knowledge. PACE students are not on a graduation track, but instead on a certificate of attendance track. For children who are non-verbal, severely intellectually impaired and with varying levels of paralysis and immobility, expression and the ability to express receptive understanding is a central challenge to their development.

Many PACE students are medically fragile and their education requires adaption to orthopedic and neurological abnormalities, skin integrity issues, spasms, cramps and dystrophies, seizures, multiple surgeries and other issues. PACE is dedicated to wrapping the realities of our students' medical and therapeutic well-being into the educational program.

Other components of the Profile of the SC Graduate include the life and career characteristics of integrity, self-direction, perseverance, and work ethic. We proudly celebrate our students who demonstrate these characteristics in solving the puzzles of their self-sufficiency. We see them learn to walk, feed, toilet, eye gaze communicate, reach and point communicate, smile and utter intentionally. Seeing pure joy when a child propels him/herself for the first time and becomes efficient at the skill of driving a power wheelchair is an important definition of the success of the PACE model.

The PACE community is centered on the children and their capabilities. It is important that they have friends who share their normalcy of development. We promote and celebrate the interpersonal skills developed within this very special community.

Some of our population will transition into work skills, such as sorting or greeting. Others will achieve goals that enable reduced assistance throughout their lives.
